Aspiring Java Backend Developer passionate about building scalable and efficient server-side applications. Skilled in **Java**, **Spring Boot**, **REST APIs**, and working with databases like MySQL and MongoDB. Focused on continuously improving through real-world projects and learning.

Experience

1. Java Development Intern — CodeDrift

(dec 2025 - feb 2026)

I worked on **Java-based applications** and gained hands-on experience in **backend development** using **Spring Boot** and **MySQL**. Collaborated with the development team on **API integration**, **bug fixing**, and improving application performance while following real-world software development practices.

Technical Skills

Language: **Java**, Python, HTML, CSS

Frameworks/Tools: **Spring Boot**, Bootstrap, Claude, Google AI Studio

Cloud: Basic understanding Google Cloud, **AWS**

Others: **Git**, **Google API Integration**

Projects

1. **Portfolio Website** (HTML, CSS, JavaScript Project) :- <https://inquisitive-marigold-cabbe5.netlify.app/>

2. Employee Management System (Java + Spring Boot Project)

Built a complete **CRUD** application using **Spring Boot** with layered architecture (Controller → Service → Repository) Integrated MySQL database using Spring Data JPA for persistent employee records Implemented **REST APIs** and tested them thoroughly with Postman

3. Authentication + JWT Login System (Spring Security Project)

Implemented secure user authentication using Spring Security and **JWT token** generation Created **login**, registration, logout, and role-based access control endpoints Secured REST APIs by validating tokens and preventing unauthorized access

4. Hotel Booking Website (HTML/CSS/JS Project)

Developed a responsive hotel booking website with multiple pages. Implemented login, booking form, and user authentication logic. Styled using **Bootstrap** and vanilla JavaScript for form validation

Education

Bachelor of Engineering (B.E.) – AI & DS

MET Institute of Engineering, Nashik

2022 – Present | Third Year
